👁️ Doctor Designed & Recommended 👁️ Award Winning Patented USA Product 👁️ Endorsements from leading National Family Associations 👁️ Highly Durable, Adjustable, Affordable, Fun Designs that Kids Like to Wear 👁️ One Size Fits All – From 6 Months to 6 Years 👁️ 100% UV plus Blue Light & Infrared Protection 👁️ CE Standard Compliant 👁️ Impact Resistant Ultragaurd® Polycarbonate Lens 👁️

Keeping a hat on a child is almost impossible and normal sunglasses are often discarded. An award-winning solution is now launching on the Irish market that has been a huge hit with children, mothers, retailers and doctors in the USA. **Frubi Shades®** are a fun name but a scientifically serious solution to safeguarding young eyes.

Frubi stands for **FR**ame coverage, **U**ltra violet, **B**lue light and **I**nfrared. Frubi Shades are rated with an eye protection factor (EPF) of 99.5 out of 100, the highest yet recorded in the sunglass industry. And they're made of polycarbonate so they are the safest lens made.

Did you know?

- ⚡ Eyes get sunburned by the sun.
- ⚡ The damage starts when young and is cumulative.
- ⚡ A baby's retina is 70% more exposed to UV than adults.
- ⚡ Harmful effects of the sun's rays are linked to cataracts, macular degeneration and serious eye damage in later life.

100% UV &
99.5 EPF
means your
kids get
maximum
protection!

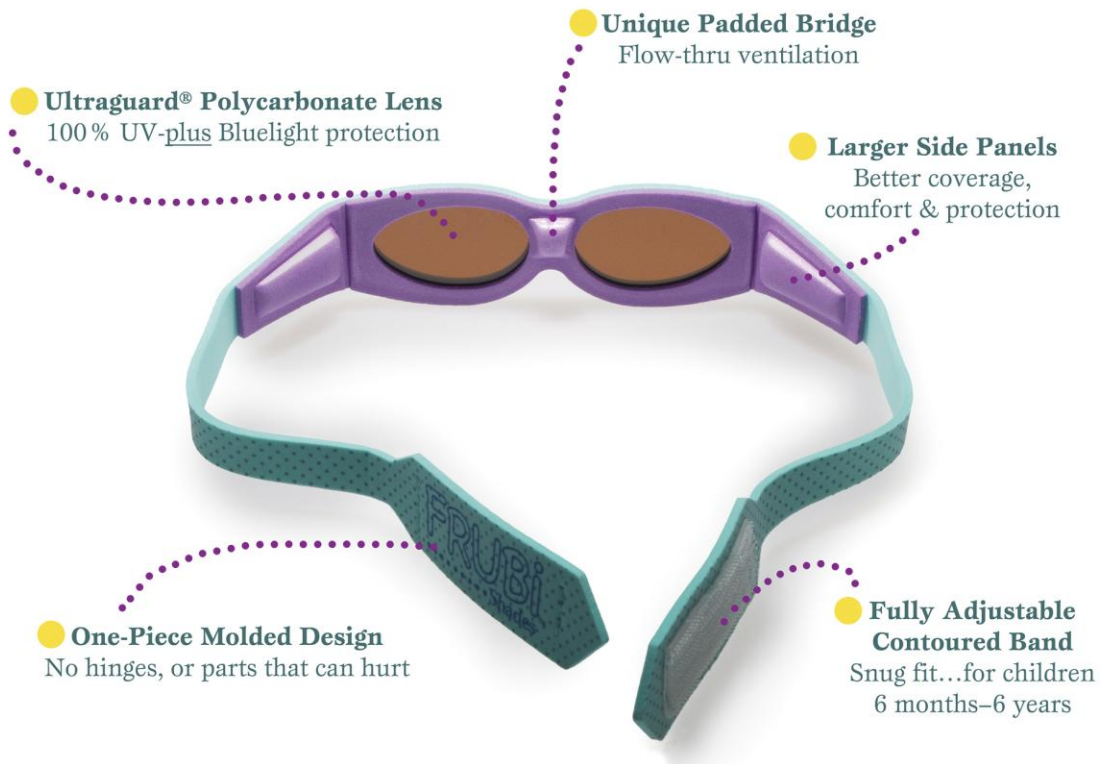

The EPF (Eye Protection Factor) rates the TOTAL protection of sunglasses, not just UV –

- **Frame Coverage:** Rates the sunglasses' ability to block harmful stray sunrays which go around the lens and frame.
- **Ultraviolet:** Rates the lens' ability to block UVA and UVB.
- **Blue Light:** Rates the lens' ability to block visible blue light.
- **Infrared:** Rates the lens' ability to block IR radiation.

Recommended retail price €10.90
